NOTE.—The figures in this Table No. 7 give the amount of the actual net receipts derived from the Customs, Excise, Estate, &c., Duties, Stamps and Taxes; and do not therefore correspond exactly with the figures in Tables Nos. 2 and 4, which give the payments made into the Exchequer "Exchequer Receipts," on account of these duties in each year.

† Exclusive of proportion of Duty carried to Local Taxation Accounts.

‡ Exclusive of proportion of Probate Duty collected for Local Authorities (see Table No. 12, p. 32).

§ The amounts under the several schedules show the approximate produce of the Tax based on the assessments of property and income under each schedule.

†† Prior to 1894-5 all Death Duties were included under the general head of Stamps.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. Hence the loss is not necessarily the measure of relief to the taxpayer.

* This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

† The amount mentioned in the Budget was 25,000*l.*, but that referred to the total repeal of the Licence which was not carried out.

‡ Grants made from the Exchequer to Local Authorities in England amounting to about 2,650,000*l.* were at the same time discontinued.

NOTE.—The loss to Revenue caused by the reduction of Taxes is in most cases less than the gain which the reduction affords to the taxpayer, because the loss to Revenue is generally recouped by an increased consumption or use of the articles taxed consequent upon the lowering of the duty. * For the year 1882-3 to 1895-6 the full annual value of lands is given under Schedule B., but for the year 1896-7 only one-third of the annual value is given as provided by Act 59 Vict. c. 28, s. 26. Up to 1892-3 the profits from the occupation of farm lands were by law deemed to be equal to one-half the full annual value of the lands in England and Wales, and to one-third in Scotland and Ireland, and the duty was adjusted accordingly. For the years 1894-5 and 1895-6 a uniform rate of 3d. in the £ was charged for the United Kingdom (by Finance Act) as the equivalent of 9d. in the £, and the duty was charged under other schedules of the tax; but for the year 1896-7 the full rate of 3d. in the £ was charged.

NOTE.—More precise information having been obtained as to the receipts of Local Authorities for the year 1892-3, it was discovered that in previous years large sums received in respect of the sale of gas and water by Urban Sanitary Authorities had been returned as receipts from Rates. The figures for the year 1891-2 have been corrected as far as possible, and now show, as nearly as the accounts will allow, the receipts from Rates. Repayments to Local Authorities on account of private improvement works executed by them, and previously included as rates, have also been excluded.

† For 1895-96, Rural District Councils.

‡ Exclusive of Rates levied under Burial Acts.

† Including Masters.

Note.—This Return includes Channel Island vessels, and, up to 1891, Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom. From 1892 all Foreign-going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.

* The number of Patents actually sealed under the Act of 1883 during each year is given instead of the number of Patents sealed in respect of the applications of that year. This accounts for the small number sealed in 1884, the majority of the applications in that year having been sealed in 1885.

† The Patents, Designs and Trade Marks Act, 1883, which came into operation on the 1st January 1884, first provided for the registration of designs in sets.

† It will be observed that the net receipts brought to account in the year 1898-9, viz. - - - - £ 21,558,226
exceeded the Exchequer Receipts (see Table, No. 4, p. 13), viz. - - - - £ 20,850,000

by no less than - - - - - 708,226

This large difference is due to abnormal Clearances during the last few days of 1898-99 on account of:—

(a.) Tea, estimated at - - - - -	100,000
(b.) Tobacco, estimated at - - - - -	610,000
Total - - - - -	710,000

Such clearances were made in anticipation of a possible increase of the duty on these articles. The amounts thus collected in 1898-99, which properly belonged to 1899-1900, were accordingly held over and not paid into the Exchequer until after 31st March 1899.

* Exclusive of additional Beer and Spirit duties collected for Local Authorities (see Table No. 13, p. 34-5).

‡ Exclusive of Local Taxation Licences collected for Local Authorities (see Table No. 13, p. 34-5).

Hence the loss is not necessarily the measure of relief to the taxpayer.

* Amount not specifically mentioned in the Budget.

† This is the actual decline in the produce of the Stamp Duty on Marine Insurances for one year after the alteration of the Duty. It is quite possible, however, that the improvement in trade may have obscured in part the loss of the Budget concession.

Note.—This Return includes Channel Island vessels, and, up to 1891, Foreign-going vessels belonging to the Isle of Man for which crews were engaged at Ports in the United Kingdom. From 1892 all Foreign-going vessels belonging to the Isle of Man are included.

The number of persons employed in the year is the sum of the number of persons forming the first crew of each vessel employed during the year.

The Home Trade includes vessels trading or going within the following limits, viz.: the United Kingdom, the Isle of Man, the Channel Islands, and the Continent of Europe between the River Elbe and Brest.

The Foreign Trade includes vessels trading or going beyond the above limits.

Some vessels known to be trading abroad are omitted from the Return, because no late information of the number of their crews could be obtained.

* The number of Patents actually sealed under the Act of 1883 during each year is given, and not the number of Patents sealed in respect of the applications made in each year. This accounts for the small number sealed in 1884, the majority of the applications in that year having been sealed in 1885.

† The Patents, Designs and Trade Marks Act, 1883, which came into operation on the 1st January 1884, first provided for the registration of designs in sets.
